  - D) One hand-held wired microphone with a stand.
  - E) One hand-held wireless microphone (if available) with new battery.
  - F) Two extra fully working channels in the mixing board with either XLR or 1/4 inch inputs for a custom music player and wireless microphone, both of which will be provided by The Evasons.
  - F) Two standard electrical outlets (110 volts) located near the mixer.

IMPORTANT: Most professional performance venues have proper PA systems. Hotels and banquet halls often have systems with speakers mounted in the ceiling but these speakers cannot be used for this show. Also, DJ or band systems are often not suitable. If there is any doubt, please contact The Evasons or their representative prior to the show day. If a suitable system is unavailable at the facility, arrangements can be made with a PA supplier or rental company. Please provide contact information for the PA provider so the Evasons can speak with them in advance of the performance date to review the details.
2. **LIGHTING:** The show takes place on stage and in the audience, so both areas must be lit. The existing room lighting is usually sufficient. If the venue has theatrical lighting, please give a basic full stage wash and adjustable house lights.
3. **STAGE:** Performance area measuring a minimum of 16 feet wide by 12 feet deep that is clear of obstructions such as lecterns, cables, speakers, band or DJ equipment with a surface that is smooth, clean and level. The venue should be suitably heated or cooled (air-conditioned) and ventilated.

IMPORTANT: If other performers will be using the stage, please notify The Evasons prior to show day.
4. **STAIRS:** Easy and direct access from the stage into the audience is necessary. If the stage is over 12 inches high, provide stairs that lead directly into the audience from the FRONT of the stage.
5. **SEATING:** If the house does not contain fixed seating, the first audience row should be placed approximately 8 - 10 feet away from the front of the stage. If a dance floor is located in front of the stage, please fill it with portable chairs and if required, the chairs can be removed after the performance. It is necessary to have a clear path from stage to seats and also a clear path through the audience seating to the back of the house. There should be a clear line of sight without obstructions from the audience to the stage, from the stage to the audience and from all areas within the audience to each other. Please provide a floorplan, if available.
6. **PROPS:** Please provide on stage: one small table (about the size of a card table), four chairs without armrests and one sheet music stand (if available).
7. **ACCESS:** A minimum of 90 minutes for setup and sound checks prior to the audience arrival in venue. Please note that morning shows may require that sound checks take place the night prior.
8. **DRESSING ROOM:** If the venue is at a hotel where The Evasons will be staying, no additional dressing room is required. Otherwise, an exclusive, clean, lighted, suitably heated/cooled, ventilated, non-smoking, private, secure and lockable dressing room located near the performance area. The dressing room should contain a mirror, electrical outlet, a rack for hanging clothes, a table and two chairs, and if possible a sink and full restroom facilities.
